Version: 1

Approval Date: September 2024

Review Date: September 2026

APPENDIX 1

In the table below is an extract from the NDIS Quality and Safeguards Commission. It outlines the **reporting requirements to the NDIS** including **timeframes and required forms**.

How to notify the NDIS Commission of a Reportable Incident from 1 July 2019

There are key steps for registered NDIS providers to notify the NDIS Commission about reportable incidents. These are outlined below.

From 1 July 2019 registered NDIS Providers in ACT, SA, NSW, NT, QLD, TAS and VIC should use the NDIS Commission Portal 'My Reportable Incidents' page to notify and manage all reportable incidents.

STEP 1. Notify the NDIS Commission

- The Immediate Notification Form must be submitted via the NDIS Commission Portal **within 24 hours** of key personnel becoming aware of a reportable incident or allegation.
- The Immediate Notification Form includes a number of sections and questions, concerning details of the reportable incident, actions taken in response to the incident and the individuals involved in the incident.
- An exception to this rule is notifying the NDIS Commission of the use of a restrictive practice that is unauthorised or not in accordance with a behaviour support plan. In these instances, the provider must notify the NDIS Commission within five business days of being made aware of the incident. If, however, the incident has resulted in harm to a person with disability, it must be reported within 24 hours.
- To notify the NDIS Commission of an incident the authorised 'Notifier' or 'Approver' needs to login to the NDIS Commission Portal and select 'My Reportable Incidents' tile at the top of the screen. From here, you will be able to complete an Immediate Notification Form.
- The NDIS Commission suggests the '**Authorised Reportable Incidents Approver**' is the person you want to have the authority to review and be responsible for submission to the NDIS Commission. This could be the person specified in your incident management system who is responsible for reporting incidents to the NDIS Commission. The authorised 'Approver' will have the ability to submit new Reportable Incidents and view previous Reportable Incidents submitted by their organisation.
- The NDIS Commission suggests the '**Authorised Reportable Incidents Notifier**' is a supporting team member who can assist the 'Authorised Reportable Incidents Approver' to collate and report the required information. The authorised 'Notifier' will have the ability to create new Reportable Incident notifications to be saved as a draft for review and submission by the authorised 'Approver'. The authorised 'Notifier' will need to inform the authorised 'Approver'

that the Incident is awaiting their review and submission. The 'Notifier' can also view past Reportable Incidents they have created through the page.

STEP 2: Submit a 5 Day Form

- The 5 Day form must be submitted via the 'My Reportable Incidents' portal **within five business days** of key personnel becoming aware of a reportable Incident. This provides additional information and actions taken by the NDIS registered provider.
- The five-day form is also to be used for incidents involving the unauthorised use of a restrictive practice, other than those resulting in immediate harm of a person with disability.

STEP 3. Submit a final report, if required

- You may be required to provide a **final report**. When this is the case, the NDIS Commission will notify you via email and tell you the date this is due.
- If you are required to submit a final report, you will have access to the final report fields on the NDIS Commission Portal for that incident.

There are key considerations for registered NDIS providers. In all cases, providers must assess:

- The impact on the NDIS participant.
- Whether the incident could have been prevented.
- How the incident was managed and resolved.
- What, if any, changes will prevent further similar events occurring.
- Whether other persons or bodies need to be notified.

In certain instances, the NDIS Commission may mandate to provide detailed information related to a Reportable Incident within 60 business days (or within a longer period as specified by the NDIS Commission) following an initial notification. This information must be submitted in writing and may encompass:

- Specifics of any internal or external investigation or assessment conducted concerning the Incident, which include: the identity and role of the investigator, the timeframe of the investigation, and any conclusions drawn from the investigation.
- Detailed information on any corrective measures or other actions implemented as a result of the investigation.
- A full report of the conducted investigation or assessment.

DEL'S HOUSE PTY LTD | **Incident Management Policy**

- Confirmation whether the individuals with disability affected by the Reportable Incident (or their designated representatives) have been duly informed about the progress, findings, and subsequent actions concerning the investigation or assessment.
- Any other information specifically requested by the Commissioner.

Where appropriate, the NDIS Commission may require a provider to take remedial measures. The NDIS Commission may work with the provider to implement these measures and monitor progress. Remedial measures may include, but are not limited to, additional Worker training and development or improved services to support NDIS participants and updating policies and procedures.
